MEET THE BUILDER

Wilkinson Builders focuses on top-notch customer service

Charles Wilkinson and his family founded Wilkinson Builders 25 years ago, based on a forward-thinking philosophy to continually search for ways to improve, for emerging trends, and for state-of-the-art, proven technology. Since then, Wilkinson Builders has excelled in the craft of homebuilding, as well as in the finely honed art of customer service. Charles Wilkinson and his family put their hearts and souls into Wilkinson Builders, building each home with the same level of integrity they would for the home of a family member.

Wilkinson Builders strives to offer an unparalleled level of service, support and communication to make the process of buying a home one of ease, confidence and comfort. A Wilkinson home is also distinguished by more tangible facets, including impeccable design, meticulous craftsmanship, and artful and harmonious blending with the natural landscape. Each Wilkinson community is planned around the topography and natural features of its location to preserve the beauty and balance nature has created. In fact, the Wilkinson family still farms this region, and regards it as a precious resource. With spring-fed ponds, lush expanses of mature trees and rolling hillsides, no two Wilkinson communities are alike.

Wilkinson Builders creates communities for buyers seeking age-qualified clubhouse communities, custom estates, and everything in between. An expansive catalogue of options is offered at each community.

Several decorated model homes are available for interested homebuyers to tour, including the spectacular models at Carlton SouthGate, White Clay Knoll and Sandy Hill, and the pristine model-home villages at the 55-plus communities Harrogate and Spring Meadow.

Homebuyers can tour the model home at Wilkinson Builders' Carlton SouthGate community in Chadds Ford, Pa.

Wilkinson Builders also offers a selection of quick-settlement homes for buyers who want to move into a new home quickly. Corporate rental homes are available to help bridge the timeframe between agreement of sale and settlement.

Carisbrooke, located in Landenberg, Pa., features eight partially wooded one-acre-plus homesites convenient to Routes 1, 41 and 7.

Also in Landenberg is Glen Ridge, a community of 12 wooded homesites surrounded by open space.

Located along the White Clay Creek Preserve is Nivin View, with 12 wooded homesites overlooking the rolling hills of Landenberg.

Carlton SouthGate, located in Chadds Ford's "chateau" wine country setting and convenient to Greenville and Wilmington, is surrounded by

protected woodland and offers beautiful views.

Wynstone, a community of 23 homesites, offers easy access to Routes 896, US 1 and I-95.

Just north of Hockessin, Del., are The Preserve at Red Oak Hill and Holly Hill, featuring seven spacious homesites.

In Camden, Del., buyers will discover Sandy Hill, a community of 110 homesites less than an hour from the beach.

For those seeking a low-maintenance 55-plus community, Wilkinson Builders offers Brittany Hills II and Harrogate in Chester County, and Spring Meadow in Smyrna, Del. Brittany Hills II features private homesites with wooded backdrops. Harrogate offers one-level living, surrounded by walking trails and open space. Spring Meadow is convenient to DE SR 1 and the Delaware beaches.

Charles Wilkinson and family strive to offer an unparalleled level of service.
