

## Wilkinson Builders Unveils Design Blog: *Home2Design*

For 25 years, Wilkinson Builders has been innovative in their creation of award-winning homes in award-winning communities. A vital tool in their marketing plan has been the corporate website, [www.WilkinsonBuilders.com](http://www.WilkinsonBuilders.com), where buyers can get up-to-the-minute information on quick settlement homes, as well as maps, floorplans, and more.

Now Wilkinson Builders has added to their web presence with the creation of the Wilkinson Builders blog, *Home2Design*, at [www.WilkinsonBuilders.blogspot.com](http://www.WilkinsonBuilders.blogspot.com). Working in consultation with designers, selection coordinators, and marketing experts, as well as with a finger on the pulse of current trends, the writers of *Home2Design* strive to bring inspiration to its readers.

Far beyond the land planning and the site work, far beyond the craftsmanship...is the heart of the home. It's what makes a home unique. It's incorporating state-of-the art technology with hot trends. It's having great design, no matter what one's budget. Whether blog readers are searching for a new home, or looking to give new life to their existing home, Wilkinson Builders hopes the *Home2Design* blog will be a tool that provides inspiration.
