

Sandy Hill Model Home Grand Opening!

A beautiful sunny weekend was the perfect backdrop for Wilkinson Builders' Grand Opening of the Model Home at Sandy Hill on September 15 & 16. Families enjoyed free refreshments, and entertainment including a professional clown and a moon bounce, but the real star of the event was the newly-unveiled Bristol Country Model Home.

With its open and flowing floorplan, and eclectic decorating by award-winning Louis Tyler Creative Services, the Bristol offers complete liveability in a creative environment. Refreshingly, the Model Home showcases the extensive list of standard features in Sandy Hill...it is truly a home that does not "need" anything!

Located in charming Camden, Delaware, Sandy Hill is priced from the mid-\$300's. All new homes include: nine foot first floor ceilings, Andersen® 200 Series windows, a granite kitchen island, generous hardwood flooring and crown molding, a 10 year limited homeowners' structural warranty, and much more! Homesites range from .33 to .81 acres.

The Model is open daily from 12-5. For more information, please call the Sandy Hill Information Center at 302-697-3806 or visit us at WilkinsonBuilders.com.
