

Wilkinson Bike Team Raises Money for MS Society

The newly-formed Wilkinson Builders Bike Team rode in the Delaware Chapter of the Multiple Sclerosis Society's "Bike to the Bay" on a sunny Saturday in September. The event commenced at the Dover campus of Delaware Technical and Community College, and ended some 78 miles later near the Atlantic Ocean, in Rehoboth Beach.

Wearing matching Wilkinson Builders' logo jerseys, the team fought against strong head winds and fatigue as they rode in honor of those who cannot ride because of their battles with the debilitating disease of MS.

2007 marked the largest group of riders in Delaware "Bike to the Bay" history, with over 1600 bikers participating. Although pledges are still coming in, to date the Wilkinson Bike Team has raised \$1,645 to benefit the work of the MS Society.
